

I get many solicited calls at work and they take you name down. Then send you items that you didn't even order. I stop having a phone at home because I received so many solicit calls. Now I'm getting solicit calls to my cell phone which are minutes I pay for. The public does not pay for my minutes. Lets continue having the do not call list. Even if we the people have to pay for it. Its worth it. Thank you for your time.
